As a member of the Center
for Science in the Public
Interest (CSP), I urge
you to save human lives
by banning the use of medically
useful antibiotics in
animal feed. Adding antibiotics
to feed in order to
promote growth can make
bacteria resistant to those
antibiotics. And that can
leave physicians with no
way to treat life-threatening
bacterial infections in humans.
That's why I support the petition
filed by

CSP.
Sincerely,
Lisa Reiss
